NOTICE OF ALLOWANCE

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's arguments, see pages 12-14, filed 07 February 2005, with respect to the obviousness rejection of JP '862 in view of Hu, Eaton, and Wada have been fully considered and are persuasive. The rejection of claims 1-10 has been withdrawn. Upon reconsideration of the claimed invention, it is the examiner's opinion that the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious an abrasive machine having a pressurized slurry delivery system where the slurry is delivered to the work piece through an abrasive plate having a plurality of slurry holes for feeding the pressurized slurry to the work piece in a controlled manner via a plurality of valve mechanisms, a plurality of slurry paths, and a control section for controlling the valve mechanisms, together in combination with the rest of the limitations in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David B. Thomas whose telephone number is (571) 272-4497. The examiner can normally be reached on 7-4 M-F.
